

IF A FULL SERVO TRAVERSE ROBOT IS TOO EXTRAVAGANT !

RAISING AUTOMATIC MOTIVATION !

HYRobotics has offered many alternative ways to use pneumatic swing robots for both Sprue and Molded parts removal applications in the North American Market.

If you think full servo, gantry style robots are too expensive for your application and still need partial automation for quality control and consistency production !.

Contact us today !

You may save up to 80 % !

With high quality components, easy and flexible controls, HYRobotics robots have won the approval of North American Molders.
